STAND OUT FROM THE CROWD

A collection that continues to inspire

Details are key elements to differentiation, to a high quality and to a unique design. In everything we do, these three Nimbus characteristics are our focal points.

Common to our collection of jackets and lighter garments are Design, Details and Quality. In all our styles you will find fashionable and sophisticated details and many exclusive designs in comfortable and technical fabrics, added special insulation types and various choices of functionalities in zippers, pullers, buttons and drawstring.

ELEGANT DETAILING

The stylish designed logo injected buttons in elegant and matching colors, along with our branded zipper pullers, are just some of the many retail inspired design details in our popular collection of lighter garments.

GREAT SHAPE RETENTION

An outstanding shape retention is a high priority in our well assorted knit program. By combining luxury yarns with either anti-peeling acrylic or fine polyamide we make sure, that our high-quality styles keep the perfect shape no matter how often they are washed.

THE IMPORTANT DIFFERENCE IN MEN'S AND WOMEN'S STYLES

Our exclusive collection of lighter garments is designed with an attention to the differentiation between ladies and men's styles. Therefore, you may find different design details on the same style. Our Phoenix knit is designed with a masculine main zipper for men, whereas the ladies version is designed with a feminine styled button fastening. In our stretch deluxe polo shirt, Harvard, you will find a feminine v-neck for ladies, where the >

mens version is with a shirt collar and three tone-in-tone buttons at the placket.

In our premium cotton blend knit Brighton, you will find a tubular hem with a feminine side slit for ladies, where the mens version is designed with a rib a sleeves and bottom hem.

LUXURY OUTERWEAR

At Nimbus we offer a wide and versatile collection of outerwear that transcends the current trends, yet also offers you pieces that last beyond the seasons. Our collection of outerwear goes beyond classics to include bombers, high street gilets, fashionable parkas and down insulated jackets, and are renowned for its innovative silhouettes and materials. Since 1995 we have offered a large range of classic ready-to-wear styles in a clean and confident design. All with an emphasis on corporate and timeless versatility, embracing our passion for high quality, a strong design and refined details.

PROTECTIVE FEATURES

The changeable weather can often be a challenge when hitting the streets. Therefore, the majority of our jackets are designed with weather protective features – either for full water protection or water repellency. The use of waterproof zippers, taped seams and PU coatings, are just some of the many features that you can experience in our collection of outerwear.

As an example, we value a high level of technical features in our jackets - and our zippers are no exception. Our collection of outerwear is designed with an increased focus on high quality zippers. The YKK zippers fits the demanding criteria to a quality product and is trusted worldwide for the impeccable production standards and thorough quality control processes for slide fasteners.

The focus has always been on creating a collection of outerwear, precise in construction and shape, ensuring a comfort level that suits any wardrobe.

CERTIFIED ORGANIC COTTON

Developing and producing within the textile industry, as well as many other industries, has an impact at our environment.

At Nimbus, we are therefore continually working hard towards an enduring sustainable strategy, minimizing the consequences of our activities.

We are constantly striving at developing long-lasting products both in regards to quality as well as design, while at the same time sourcing materials and finding production methods that reduce our environmental footprints.

As an important part of this strategy, we are in the process of developing our current collection to consist of a wider range of products produced from GOTS certified organic cotton.

This conversion means that existing styles changing from conventional cotton to organic cotton, will be marked with our "Changing to Organic Cotton" logo. Styles that already are produced with organic cotton will be marked with an "Certified Organic Cotton" logo.

We still hold stock from previous productions, but as we consider it environmentally irresponsible to destroying these, we will initiate a "first in first out" principle.

We hope that everyone will welcome the "new" products and support us in our efforts to protect our future and environmental imprints.

ORGANIC COTTON PRODUCT

Styles produced with organic cotton is marked with the "Organic Cotton" logo.

A PRODUCT CHANGING TO ORGANIC COTTON

Styles changing from conventional cotton to organic cotton, is marked with our "Changing to Organic Cotton" logo.

STRETCH DELUXE POLO

The unique Harvard polo shirt is the most luxurious and detailed polo shirt on the market. It is unlike any other and yet it follows the classic codes. Made in a blend of 95% combed cotton and 5% elastane, the stretchy fitting seems tighter, and shapes elegantly at any time. Adding a shirt collar stand along with three tone-in-tone buttons at the placket, makes Harvard a touch of understated originality, that allows for the use of Polo shirts in more well-dressed situations.

THE LUXURIOUS CLASSIC POLO

The luxurious Yale Polo is a classic two thread piqué made from fine combed cotton. Its unique cut ensures a perfect fit, and with the firm two button placket, forwarded double stitches at the shoulders and a slightly stiff collar, Yale appeals for a traditional and stylish appearance. The characteristic colored decoration details at the neck tape and at the bottom slits, adds contrast to all of the five classic colors. Yale is inspired by the timeless Nordic trends, where dressing both stylish and casual is a must for any admirer of Scandinavian Apparel.

DELUXE LONGSLEEVE POLO

The polo never goes out of fashion, and now we have complemented our broad range with the long-sleeved version. The long sleeves gives it a more distinguished look, perfect for situations where it is suitable, and it can also be used as a more casual counterpart to the shirt. Produced in comfortable cotton-elastane, Carlington has many elegant details that gives it a touch of exclusivity, such as button-down and cuff sleeves with button fastening.

CASUAL BUTTON DOWN POLO SHIRT

The stylish Columbia Polo is the eye-catching choice when choosing your preferred Nimbus polo. As with the characteristics from the Yale Polo, the Columbia is a classic two thread pique, made from fine combed cotton.

Columbia will however feel bit tighter fitted than Yale. With its distinctive slightly stiff button down collar and narrow 4 button placket, Columbia is without doubt a polo shirt for the ones who prefers to stay casual dressed in a fast-paced work environment.

THE PIQUE TEE

The pique T-shirt Danbury is a unique new piece, which can be used for a variety of occasions. It's a perfectly fitted T-shirt, made from the comfortable cotton-elastane fabric we use for our popular Harvard-polo. The fabric adds more shape, which prevents it from curling and makes it feel extremely comfortable against your body. Overall, Danbury gives a classic well-dressed look, and is therefore suitable as a substitute for a polo or a shirt.

RAW AND STYLISH DENIM SHIRT

Torrance is our take on the classic denim shirt, which has had a comeback the last few years. We have toned down the roughness and added more elegance and style, e.g. by adding a button-down collar in the male version and shaded dark blue buttons. Torrance is available in a deep beautiful indigo blue color, the fabric has a bit of stretch and the designs are either a Nimbus Slim Fit or a classic Modern Fit.

CLASSIC COACH JACKET

Marking our 25th anniversary as the style which indirectly kick-started Nimbus the Jacket Company back in 1995, the iconic "Independence" jacket is introduced to celebrate two decades of influential outerwear design.

As every facet of 90's sportswear has been re-introduced or interpreted over the last years, the Coach jacket is no exception among cool streetwear and high-end fashion brands today.

STYLISH DIAMOND QUILTED JACKET

The stylish diamond quilted Henderson is the noble and sophisticated choice for everyday wear. Henderson's contemporary and aristocratic design combines traditional details with a highly comfortable fit. It is a true classic which is still to be found among many popular and well-known retail brands. It is however the perfect combination of weather protective features and the lightweight Sorona® insulation along with the many stylish and functional details, that makes this jacket a versatile piece of outerwear in both men's and ladies designs.

CLASSIC AND AUTHENTIC JACKET

This cool Bomber jacket catches the retail trends, and embraces both authenticity and classicism of memorable outerwear. The ribbed trim and buttoned pockets complements the authentic expression, while the metallic looking zippers adds a dash of rawness to the look. Featuring elegant details, such as a low neck collar in comfortable knit, an easy accessible inner pocket, a decorative upper arm pocket and the fashionable leather parts. Tribeca stands out in an unbeatable combination of a classic design that has been reinvented with a modern lifestyle in mind.

MODERN STYLED QUILTED JACKET

Inspired by the urban fashion scene, Halifax offers a unique way of dressing casually while allowing both a raw and stylish appearance. Halifax is a jacket that can be worn all year, and the popular vertical quilted look, modern slim fit and knitted collar makes this jacket suitable for wearing with both elegant and rugged outfits. This is definitely a jacket with an attitude, and the links to the popular trends in the scenery of the Scandinavian capitals are obvious.

THE TIMELESS ELEGANT JACKET

The classic Oxbridge jacket is inspired by an iconic era where traditional dressing called for timeless and stylish outerwear, and where elegance came before anything else. With cool designer details, such as rough looking metal zippers and strategically placed leather badges, the overall appeal of the style seems both elegant and rugged. The smooth OUTER FABRIC, the preppy chambray lining and the stylish fit creates a feeling of the fashion from the 60's and the trends of today.

HOW TO MEASURE

CSR

WE TAKE OUR SOCIAL RESPONSIBILITY
SERIOUSLY, AND ALWAYS AIM
TOWARDS A MORE SUSTAINABLE
DEVELOPMENT. WE CONSIDER CSR TO
BE AN INTEGRATED PART OF OUR
BUSINESS AND AN ESSENTIAL ELEMENT
IN OUR COMPANY'S DEVELOPMENT.

CODE OF CONDUCT

WE STRIVE TO MAKE A POSITIVE DIFFERENCE TO OUR SOCIAL, ENVIRONMENTAL AND ECONOMIC RESPONSIBILITIES, THAT ARE FOUNDED UNDER THE HEADINGS PEOPLE, PLANET AND PROFIT.

10

to follow

- 1 Nimbus will support and respect the protection of internationally proclaimed human rights.
- 2 Nimbus will make sure that they are not complicit in human rights abuses.
- 3 Nimbus will uphold the freedom of association and the effective recognition of the right to collective bargaining.
- 4 Nimbus supports the elimination of all forms of forced and compulsory labour.
- 5 Nimbus will support the effective abolition of child labour.
- 6 Nimbus will abolish discrimination in relation to work and employment conditions.
- 7 Nimbus will support a precautionary approach to environmental challenges.
- 8 Nimbus will support initiatives to promote greater environmental responsibility.
- 9 Nimbus will encourage the development and diffusion of environmentally friendly technologies.
- 10 Nimbus will work against corruption in all its forms, including extortion and bribery.

Download the "Code of Conduct" on
WWW.NIMBUSNORDIC.COM

WHO WE WORK WITH

WE CARE ABOUT WHERE AND
HOW WE PRODUCE

We are working towards a more responsible and sustainable way of producing and in order to live up to our CSR & Sustainability strategy, we are very selective about who we cooperate with. Using audits and assessment tools to select and monitor factories and by favoring fewer partners over many, we build long-lasting and close partnerships with our suppliers.

At Nimbus Nordic A/S we only work with CSR certified suppliers who act in accordance with our Code of Conduct.

MORE THAN

90%

OF OUR STYLES ARE
PRODUCED ON AMFORI
AUDITED FACTORIES

SOCIAL RESPONSIBILITY

As a member of the leading global business association for open and sustainable trade AMFORI, Nimbus Nordic A/S commits to the following mission: to enhance human prosperity, use natural resources responsibly and drive open trade globally.

REACH

CHEMICAL LEGISLATION

REACH is a European Regulation concerning chemicals and their safe usage. It aims to improve the protection of human health and the environment through a system of Registration, Evaluation, Authorization and restriction of Chemicals.

At Nimbus Nordic A/S it is demanded that our suppliers comply with the requirements on chemicals stipulated by the European Parliament and Council Directive (190/2006/REACH Appendix XVII).

OEKO-TEX

CONFIDENCE IN TEXTILES

Nimbus Nordic A/S use OEKO-TEX® STANDARD 100 certified fabrics and offers a wide range of products that is fully OEKO-TEX® certified.

STANDARD 100 by OEKO-TEX® is one of the world's best-known labels for textiles tested for harmful substances.

Clothing manufactured under the principles of OEKO-TEX® meets requirements for pH value and content of harmful substances, such as pesticides and heavy metals.

ORGANIC COTTON

THE NATURAL CHOICE

Organic cotton is made from natural seeds and is grown without the use of synthetic pesticides and fertilisers, which leads to improved soil condition, lower greenhouse gas emissions, stronger biodiversity and better health among the cotton growers.

At Nimbus Nordic A/S we believe that the use of organic cotton is a step towards a more sustainable way of producing; hence our recent initiative with changing from conventional cotton to GOTS certified organic cotton in our products.

QUALITY

IT'S NOT JUST ABOUT CREATING PRODUCTS THAT LIVE UP TO YOUR EXPECTATIONS; IT'S ALSO ABOUT DEVELOPING MATERIALS THAT STAND UP TO THE DEMANDS OF THE MODERN LIFE, WHILE KEEPING OUR IMPACT ON THE ENVIRONMENT AS SMALL AS POSSIBLE.

QUALITY CONTROL

MEETING INTERNATIONAL STANDARDS

The well-known quality is essential for our brand. Therefore, each and every one of our productions are inspected locally by our own team or by third party agencies, before shipped from production sites. At Nimbus Nordic A/S we have our own facilities in China, housing our loyal and valued colleagues, who constantly monitor the product quality and factory performances.

Each new style we develop is subject to demanding test requirements. In order to meet the high-quality standards for long-lasting products and materials all styles are tested by third party laboratories according to international standards.

TOBBY / CHINA OFFICE MANAGER

QIMA

QIMA represents a global leading quality control and compliance service provider, who secures, manage and optimize the quality and compliance of our products and suppliers. All auditors and inspectors of QIMA are managed by quality control and auditing specialists to ensure compliance with international standards.

INTERTEK

Intertek delivers Total Quality Assurance solutions for textile products. Their comprehensive services enable us to ensure quality and safety with precision. At Nimbus Nordic A/S we mainly use Intertek solutions for fabric and chemical testing.

SGS

SGS is the world's leading inspection, verification, testing and certification company. Recognized as the global benchmark for quality and integrity. At Nimbus Nordic A/S we use the services from SGS for both fabric-testing and third party inspections on productions.

COTTON KNOWLEDGE

HIGH QUALITY COTTON

The use of high quality long stable cotton in all our products, is the main reason for a long list of key point that makes our cotton products stand out from the crowd.

STABLE YARNS

Natural fibers, such as cotton require length, strength and elasticity. The long cotton fiber will result in the final fabric being stronger, softer and more durable.

The length of the cotton fibers refers to the cotton staple, and the long staple cotton is renowned for its superior quality thanks to the length of the fiber.

COMBED COTTON

Combed cotton is made by treating the cotton fibers before they are spun into yarn. The harvested cotton is applied on to fine brushes (the 'combs') to clean away impurities and any short fibers. Roughly 15% of the volume is removed this way, and leaves only long, straight fibers. The slivers of combed cotton are then spun into thread. As a general rule, combed cotton is more expensive than conventional carded cotton.

RING-SPUN COTTON

The yarn that is created for ring-spun cotton, is spun in a way that produces stronger and longer threads, as it is continuously twisted and thinned to make an extra-fine string of fibers. During this process, the threads are compacted in a way that produces a very strong and durable material. The more times the fiber has been spun and twisted, the softer it feels. Open end yarn, that is not ring-spun often result in a fabric with a rough texture.

BIELLA YARN BY SÜDWOLLE

Biella, is a northern town in the region of Piedmont. The town has been the leading manufacturing of wool since the 1800s and is today internationally known for its productions of high-quality wools and yarns.

Behind Biella Yarn stands the family-operated company - Südwolle Gebr. Steger OHG that was founded in 1966. In 2000 Biella Yarn by Südwolle was founded in Italy, uniting the tradition and experience of Südwolle with fresh ideas.

Südwolle is global leader for worsted spun yarn for weaving, circular and flat knitting in pure wool and wool blends. The company is specialist in spinning, dyeing and treatment of yarns and is being experienced in a broad variety of technologies which ensure the same quality standards in all its facilities worldwide – from Germany, Italy, Poland, Rumania and Bulgaria to China.

Südwolle blends wool with a broad range of other fibers, among other are mohair, alpaca and silk to polyamide, viscose and aramids – to enhance its natural properties and be able to have a solution for every customer's inquiry.

NIMBUS MERINO BLEND KNITS

In our merino blend program, the yarn is made of 50% Biella yarn and 50% anti-pilling acrylic which ensures that the knit keeps its fit. The fine merino blend gives the knit a soft, light and luxurious touch.

Furthermore, the yarn is top-dyed, which means that the fibers are dyed before spinning the yarn - compared to yarn-dyed, where the yarn is dyed after spinning. This gives the yarn a super soft touch.

HOW TO TREAT YOUR MERINO BLEND KNIT

WASHING INSTRUCTIONS

It is rarely necessary to wash wool. Instead of frequently wash, we recommend that you hang the garment outside to be aired out. This will clean the wool and let the natural fibers rest. This garment is machine washable on wool program and we advise to use a detergent for wool.

GOOD TO KNOW

As with all knitted garments, pilling can occasionally occur. Washing your clothes inside out will help prevent pilling from occurring and using an electric de-piller will help safely remove them.

DOWN INSULATION

Down is known for its impressive warmth-to-weight ratio, compressibility and overall comfort. In terms of warmth, nothing can rival down. Not even the best synthetics on the market that have been specifically engineered to simulate the qualities of down.

WHAT IS DOWN?

Down is the layer of "feathers" that are closest to a bird's body. Down is a very small part of the bird, growing as an undercoat on the belly and protected by a layer of feathers.

Down is NOT the same as a feather. It has a completely different structure.

DOWN FILL POWER

Fill power refers to the quality of down. Fill Power is simply a measurement of loft, measuring the amount of air trapped in cubic inches per 30 grams of down. Fill power does not refer to the amount of down used. The higher the number (800 fill, 700 fill, 600 fill etc.), the better the down and the more loft and warmth it will provide.

SPANNO SUPER NO-IRON

SPANNO
SUPER NO-IRON

NON-IRON TECHNOLOGY

A softness of touch and ease of ironing have always been top priorities for us at Nimbus Nordic A/S, and we have applied a special treatment to our business shirts.

The Spanno Advanced cotton technology takes non-iron a step further. With the SPANNO Advanced cotton technology we are able to deliver Oekotex-certified fabrics for our non-iron shirts.

The "Advanced cotton" technology allows to influence the core of the fibres from inside themselves. And instead of using conventional methods, applying a chemical onto the finished product, this Inside Cross Linking technology results in an extremely high recovery and guaranteed flattening after wash. The joys of non-iron products are many.

HEIQ® FRESH

ANTI-ODOR TREATMENT

HeiQ® Fresh Tech is a family of highly versatile and effective odor-preventing and odor-absorbing textile technologies that continue to be effective even after prolonged use and frequent washings.

At Nimbus Nordic A/S we currently uses HeiQ® Fresh durable odor control additive on selected styles. The goal of an anti-odor treatment is to keep a garment smelling fresh, enabling multiple wears between washes and preventing the buildup of persistent odor over time, making sure the garment has a long life.

BIONIC-FINISH® ECO

ECOLOGICAL IMPREGNATION

BIONIC-FINISH®ECO is an ecological water-repellent impregnation that we at Nimbus Nordic A/S are using on selected outerwear clothing.

BIONIC-FINISH®ECO offers a variety of consumer-friendly features such as rejecting water and aqueous soiling substances, being washable and suitable for all fiber types. It has the advantage of not having any negative effect on breathability, no fluorinated compounds and being formaldehyde free.

THERMAL INSULATION

BY SORONA® FIBER

The unique benefits of an insulation made with Sorona®-renewably sourced fiber is its lightweight, breathable and warmth features.

INSULATION

Outstanding warmth retention performance resulting from the combination of Sorona® fiber properties and insulation technology from partner insulation producers. This insulation delivers lightweight, breathable warmth for taking on any challenge, in any condition.

PATENTED TECHNOLOGY

Sorona® is made from a unique PTT molecular structure designed for maximizing performance, and its environmental benefits.
