SACKit® ELECTRONICS

If you do not dare to take a chance, you will never reach what is at the end of the rainbow. We encourage everyone to dare a little more and to make more exciting decisions. To always see opportunities instead of limits. Choose your own path, your own style, choose what feels right. Go with your gut feeling or ignore the rational angel on your shoulder.

At SACKit, the phrase "Dare yourself" is the basis of our philosophy. We see opportunities. We dare to believe in them. This is where our success lies. We dare to challenge the existing and to believe in new possibilities. For instance, we refuse to compromise on a design, even though manufacturers tell us it is impossible. We dare to find a way. We dare to make products that are better designed, better priced, and in better quality than the existing.

Our products are Danish designed multi-functional lifestyle items with beautiful Scandinavian aesthetics. You will always find more than one purpose for your SACKit product. Our designs are created for the modern, active lifestyle, which requires high flexibility, usability and exclusive design.

High-end beanbags, lounge furniture, trays, and speakers from SACKit provide you with a complete portable lounge for the living room, the porch, the children's playroom or the holiday journey.

CHARGEIT CARE SERIES

DARE YOURSELF TO CARE

This year we are thrilled to introduce the CHARGEit Care Series where we made a strong coperation with the Danish environmental organization Plastic Change and redesigned our CHARGEit models with a sustainable fabric. For everytime we sell a product from this series we will donate 25 Euro cents to Plastic Change, to help them in their work towards breaking the exponential growth of plastic pollution on a global scale.

25 Euro cent are donated to the enviornmental organization Plastic Change every time a Care product is sold.

The packaging of the Care products are made without the use of plastic and in FSC ®-certified cardboard from 100% well managed forests.

The CHARGEit Care series is covered in Revive fabric from KVADRAT made 100% of reused plastic bottles.

REVIVE FABRIC

- Fabric made 100% of reused plastic bottles

The CHARGEit Care series is covered in Revive Fabric from the danish manuacturer KVADRAT. Revive are a vibrant upholstery textile made from post-consumer recycled polyester (PET) and are especially created with a focus to reduce the environmental impact both in production and natural resources.

The fabric is made close to the manufacturer of our wireless fast chargers making the environmental impact as small as possible.

plastic change

- Striving towards a world without plastic polution

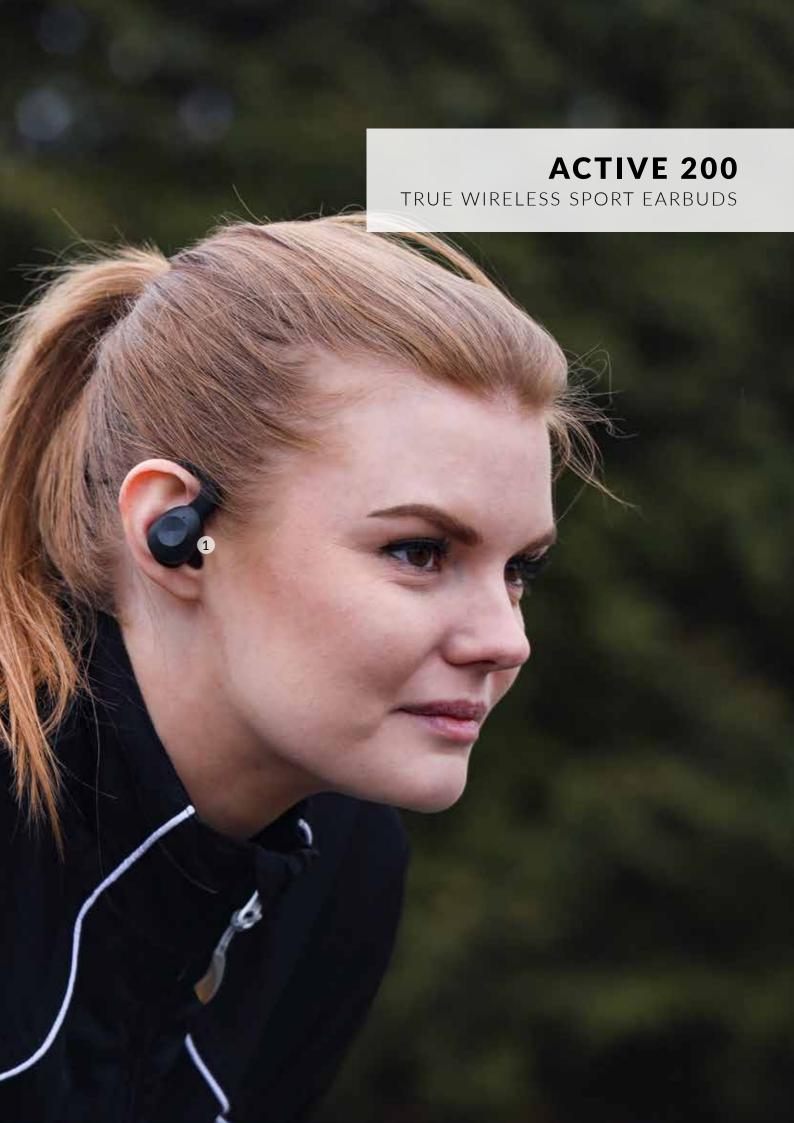

Plastic Change is a Danish environmental organization working hard to break the exponential growth of plastic pollution on a global scale. Plastic is everywhere – on land and in water. Three generations of plastic-use have left its tracks. Only a fraction of it is recycled or destroyed. The rest remains in nature for hundreds of years. Plastic Change is ambitious, because the challenge is great, and we wish to help them in they work.

ACTIVE 200

-M_ BASS MODE

• Activate the bass mode when you need to take your workout to the next level

1 UNIQUE SECURE & CHANGEABLE FIT
